**Notes:**

Arrived on site at 4:30 p.m. 61 degrees, wind 15-20 mph. Talked with site contact (Levi Weltikol) . I was told that the site has been cleaned up and the material disposed of. However, I was unable to get access to plant as an escort was unavailable at the time. Levi will be sending me photos via e-mail to confirm contamination and cleanup has been completed. Spill happened within plant boundary.
